EXPERIENCE

Vida Life Church, 3516 Oates Dr, Mesquite, TX 75150 - Lead audio and visual technician

Aug 2022 - Aug 2024

I was in charge of both the audio and video for the church's English service. This means that I had to get to church early to turn every speaker and computer on, be there while the musicians practiced and adjust their sound accordingly. Also, when we could, I would set up the cameras and livestream software for the livestream.

Vida Life Church, 3516 Oates Dr, Mesquite, TX 75150 — Kids Church helper

Aug 2022 - Aug 2024

At my church I volunteered to be in a group to be able to take care of children, ages from 5-12, giving them both fun activities to do and the word of God.

Vida Life Church, 3516 Oates Dr, Mesquite, TX 75150 — Jr-Commander

Aug 2022 - Aug 2024

Wednesdays at church I was a part of an organization called Royal Rangers, in which, as a highschooler, I was put in charge of kids ages 6-8. Here I was given a lesson that I had to give and while teaching them about God, had to also make it entertaining

Tufts Dining, 200 Packard Ave, Medford, MA 02155 — Dining assistant

Aug 2024 - May 2025

At Carmichael Dining, I had a very active role with daily changing tasks. My duties included maintaining the cleanliness of the dining room by sanitizing and cleaning tables, setting up chairs and tables, and maintaining the area clean and tidy as a whole. I also worked in the dishroom, where I ensured all plates and utensils were sorted and stocked correctly. Occasionally, I was also in charge of the pizza station, which involved creating pizzas and having them prepared to serve on the serving line the moment students arrived.

Bright Management, 9535 Forest Ln #209, Dallas, TX 75243 — Professional Fundraiser

June 2025 - June 2025

As a fundraiser I was responsible for grabbing the attention of passerbyers and trying to sell them to a charity. Here I learned communication skills and how to quickly express my message in an efficient and concise way.

EDUCATION

SEM at Townview, 1201 E 8th St, Dallas, TX 75203 — Highschool Degree

Aug 2020 - May 2024

At SEM I got a world class education with some of the best teachers teaching some of the most challenging subjects. I graduated with AP honors and got into a very select university.

Tufts University, 419 Boston Ave, Medford, MA 02155 — 4th Semester

Sep 2024 - May 2025

I am proud to say that I am currently studying in TUFTS University as a mechanical engineer undergraduate.

SKILLS

Hard worker

Focused

Great Communicator

Work well in groups

Patient with people

Quick learner

Great with computers

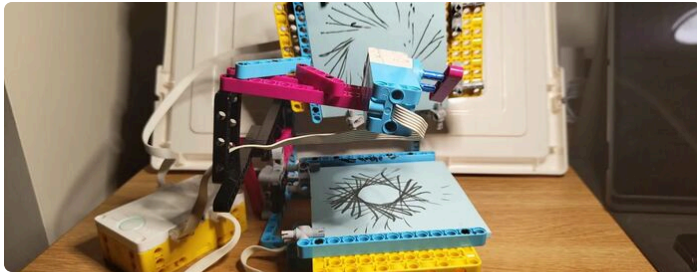

AWARDS

AP Scholar Award

LANGUAGES

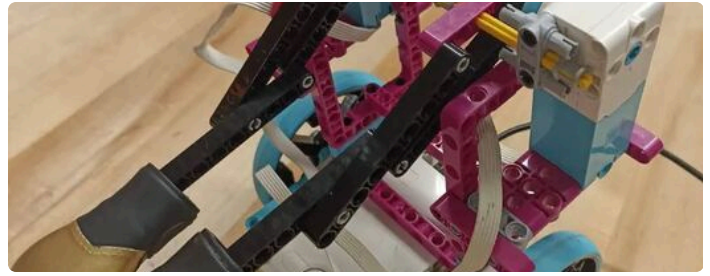

Fluent in English and Spanish, know java pretty well, familiar with java script and python, novice in French

PROJECTS

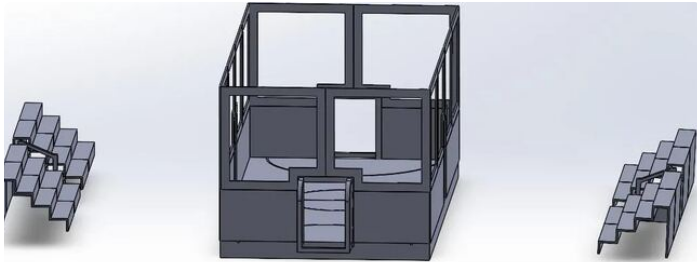

LEGO Spike Prime Drawing Machine

Designed and built a motorized drawing machine from LEGO Spike Prime components, using linkages and gearing to trace repeating geometric patterns.

LEGO Spike Prime Boxing Robot

Built a two-motor robot with articulated boxing-glove arms, controlling arm motion through a gear and linkage system driven by a Spike Prime hub.

Vehicle Frame CAD Model

Modeled a full vehicle cab and frame assembly, including side access stairs, in SolidWorks as a mechanical design exercise.

Motorized Crank Mechanism

Fabricated a wooden mechanism housing driven by a DC motor and hand crank, wiring a battery pack to power and test the drive system.
